## September 2018

*An All Year  
Celebration  
Especially For  
You!*

### *A Huge Thank You to Each and Every Professional Driver!*

We at Medallion extend our sincere appreciation to all of our professional drivers within our extended family. Trucking indeed moves America forward and we could not do it without each of you! Our appreciation and respect for you extends well beyond September 9-15<sup>th</sup>! Needless to say, 2018 so far has been quite a challenge as we all adapt to regulation changes. Your continued commitment to keeping our highways safe has a huge impact on making us one of the absolute best carriers out on the roadways!

Thank you for your safety & professionalism as you deliver America!

### **A Deeper Understanding – Our Commitment to You!**

It's important for all of us to know the ins and outs of all existing as well as changing regulations so we are expanding our learning curve too.

Congratulations to Sharon Legendre and Brett Legendre for attending and successfully completing the CVSA's Driver and Roadside Inspection Training courses in Salt Lake City, Utah!

We are committed to staying current with official programs to better understand what you are facing out on the roadways with inspections. Together we make a great team! Thank you!

### **Know What You Are Using – It Means A lot!**

Remember – if you are using a Samsara or Omnictracs unit **you are operating as AOBRD (automatic onboard recording device)!**

Industry news and terminology often refers to ELD (electronic logging device) which can make things confusing. ***It is imperative you relay to any official you are AOBRD compliant!***

If you receive an inspection with HOS violations under the 395.20 series, let us know immediately so we can challenge. These codes are incorrect and may result in unnecessary OOS orders. We are 395.15 compliant.

We are successfully challenging incorrect violations weekly so let us know immediately if you receive an inspection with HOS issues. Why's that again?

***Corrected Violations = Reduced/Removed Points = Lower CSA Score!***

### **Brake Safety Week September 16-22, 2018**

Enforcement will be conducting inspections in order to remove CMVs with critical brake violations and call attention to the dangers of faulty brake systems. BE PREPARED! As always, have your equipment thoroughly checked and inspected frequently. The public depends on you making sure your equipment is in top shape. Need some help? Let us know!

### **Trucker Path – Let The App Help You Out!**

Download Trucker Path App onto your device and find real time updates for the best truck stops, available nearby parking, weigh stations, fuel stations, rest areas, truck washes and more!

Our VP of Heavy Haul, Jesse Merrell, got a lot out of the app while recently visiting freight agents in his 99' Kenworth.

Check  
It  
Out

### **Your Fuel Discounts Really Add Up – Check It Out!**

By using your ComData card at TA/Petro and Pilot/Flying J Travel Centers ***your average fuel discount in August was "\$0.35"!*** Nice!
